**Pre-Requisite: Standard of Intensive Greek II, or Greek A-Level (at grade C or above) or equivalent.**

#### **AIM(S)**

- To translate accurately the Greek language of a prose text at an advanced level.
- To develop further skills of literary analysis and interpretation, and gain an understanding of the text's historical, cultural and literary context as reflected both in the text studied and relevant modern scholarship.

#### **LEARNING OUTCOMES**

Upon the successful completion of this module, the student should be able to demonstrate:

- Advanced knowledge of Greek grammar and syntax through translations of the text studied and unseen translation work.
- Sound knowledge of the text studied and modern scholarship on this text in literary and linguistic analysis.

#### **INDICATIVE CONTENT**

Students will study a work of Greek literature in the original language. The module will focus on prose (e.g. a book by Thucydides, a Platonic dialogue, a selection of Demosthenes' speeches). A different text is chosen each year. All set text prescription will normally be translated in class; distance learners will submit set sections of translation and commentary for distance tutor comments. Detailed language work will be combined with the development of skills of literary criticism and attention to the historical context of the works studied. In order to help students translate with greater skill and accuracy the module contains an unseen translation component to continue linguistic teaching at an advanced level. Students in this module are taught in the same group as students in Further Advanced Greek: Prose and Higher Advanced Greek: Prose.
