**Ageless Art Roadshow**

After the great success of the first Ageless Art Project, The VC Gallery decided to run a second project. Working with some of the groups we had worked with on the first project but also enlarging the catchment area to include several new venues across the county.

**Hubs included:-**
- Milford Haven
- Pembroke Dock
- Fishguard
- Haverfordwest
- Cynon.

The project was active for 6 months and in that time engaged with over 100 senior members of our community suffering from social exclusion.

The Project was very well received and many of the participants have gone on to make Art one of their past times.

**Pembrokeshire Rediscovered**

The VC Gallery’s Pembrokeshire Rediscovered project was by far one of our most popular with gallery members and the wider community. The aims of this project was to reacquaint people with forgotten areas of our county sites included:-
- Boulston Church
- Boulston Medieval Manor
- The Hanging Stone Sandsl
- Monk Haven
- The Sisters House
- Garn Fawr.

As well as representations of modern Pembrokeshire a lot of images were produced from contemporary photographs of Pembrokeshire in years gone by

The final exhibition for the project was very popular with the venue reaching capacity numbers.

**Schools, Colleges and Universities**

As well as providing art engagement for Community groups the VC Gallery has also worked with several local schools. Providing field art trips but also working closely with the Darwin Experience.

The VC Gallery also works closely with the Army Preparation course at Pembroke College and have had several field trips around Pembrokeshire with the course.

The VC Gallery has also worked with the University of South Wales to provide a field placement for their students on the therapeutic arts degree course and hosted 20 of their students for 3 days last spring and gave many of the students their first taste of working with the community.

**Rodin**

Rodin was a French sculptor and artist who created a series of sculptures which have gone on to be world famous. During his career Rodin worked with many other artists and was known as the master of sculpture. His work turned him into a millionaire in his lifetime.

The project focused around figurative work in steel and paper and a section of marble. The project was developed over a period of several months.

Members of the wider community were invited to come to a 5 day long event featuring sculpting workshops and talks.

**Under The Bridge**

The VC Gallery worked in partnership with The Port of Milford Haven, Arts Care Gofal Celf and the Torch theatre on a 6 week engagement with young people in Milford Haven.
- The Project aimed to combat Anti-social behaviour which was taking place around Milford Haven Docks.
- Engagements took place on a Friday evening throughout the summer holidays culminating in a final exhibition.
- Over 30 children attended each workshop which centred around gritty urban art. As well as music, Parkour and Break Dancing.
- The Art work was put out public exhibition in the Torch Theatre.
- Over 150 pieces of art were on display at the final exhibition!!
